Agel Product

Expiration Date*

*Expiration dates are listed on each finished product based on or beginning with the month following the date of manufacture.

GUIDELINES:

1. Agel nutritional products are not shipped from Agel Distribution Center (ADC) when the product is within 2 months of its expiration date.
2. Agel nutritional products can be consumed up to the expiration date.
3. The typical Agel expiration date format is MM/YYYY. Specific markets may have individual unique format requirements.
4. Agel products have not been shown to spoil, degrade or be unhealthy as expiration dates are approached. Agel products may have a variation in appearance and lower content levels of claimed ingredients at the expiration date.
5. Agel GLO and HRT have recently had their expiration date extended from 1 year (12 months) to 1.5 years (18 months). Test data supported this revision.
6. Agel products vary in actual stability based on individual storage conditions, ingredients and formulation. OHM and MIN have the shortest expiration dates. EXO, GRN, GLO, UMI, FIT have the longest expiration dates.
7. It is best to store Agel products in cool temperatures protected from the light.
8. Agel product that has been compromised (shipping damage, leaking product) should not be used.
9. Informational QA documents are not controlled. QA documents are subject to revision as new information becomes available. QA informational documents are available thru Customer Service
